

MYSTERY STILL SURROUNDS WALL STREET EXPLOSION

Federal Officers Believe Time Bomb Was Cause—Effort Being Made to Identify Wagon — Stenographer Saw a Wagon Carrying Red Flag Just Before Explosion

NEW YORK, Sept. 17.—(By The Associated Press.)—The exact cause of the explosion which in the twinkling of an eye yesterday noon transformed Wall street near Broad from a scene of bustling activity to one of dreadful carnage, remains tonight a mystery.

Official opinion as expressed by William J. Flynn, chief of the bureau of investigation of the department of justice and Fire Commissioner Thomas Drennan is that the disaster was caused by a time bomb loaded with high explosives and reinforced with metal slugs.

The early theory that the blast "open truck" type being driven east on Wall street a few minutes before the explosion occurred. She said the wagon contained either boxes or barrels, covered with a white powder and that a red flag flew from the rear of the vehicle.

"When it reached a point about opposite the Morgan bank and the assay office," she said, "the driver pulled up at the curb and stopped. He then got off the seat and walked west on Wall street toward Broadway. I had reached the Equitable Trust building when the explosion occurred. He was known and, I believe, I believe I would recognize the driver, if I saw him. He was of the laboring type about 40 years old, and was dressed in a suit of brown overalls. They were spotted with the white powder I saw on the boxes or barrels in the wagon."

Examination of shrapnel found imbedded in the bodies of some of the dead and of fragments removed in surgical operations on the injured has added weight to the belief that the explosion came from an infernal machine, and was not accidental.

An official conclusion to this effect will be filed Monday by Dr. Otto Schultz, assistant medical examiner attached to the district attorney's office, he said tonight.

The city today offered \$10,000 for information leading to the arrest and conviction of the person or persons responsible for the explosion and \$500 for information leading to the identification of the owner of the wagon in which the explosion is known to have occurred.

The preferred Accident Insurance company also offered \$10,000 reward for information leading to the arrest and conviction of the guilty party or parties.

Letter Made Public

The police late today made public the mysterious letter of warning alleged to have been written to the French high commission by a man named Fischer. Incoherence was evidenced in the verbatim copy furnished newspapers. Dated Queens, Toronto, read as follows:

"Dear Anand:

"I think I am doing good work in 'making the people know France, and in planting in them a strong blessing the desire in them to see France get her square deserts."

"There is a rumor that something is going to happen after 2:30 p. m.—around 3 to 4 p. m.—daylight saving in the Wall street district. I'll advise the mission close at 2 p. m. on that day and everybody go home. It may be all bull, but the world is a great place. Know and millions feel then. Have a just grievance so I think. The mission ought to play safety first. I hope you feel what I am doing is of value to France and if it pleases write me at once to Hotel Pontchartrain, Detroit, Mich., where I will be some time Thursday. I think somebody is in clean in the world of fall to wash their hands. Want me to—I, St. Paul settled that war. Anywhere else for France — no expense. Good luck."

"Ed Fischer."

Postcard Given Authorities

Mark O. Prentice, chairman of the United States clearing house of foreign credits today turned over to the police a postcard which, he said, was delivered to him several weeks ago. The card read:

"Unless you put sterling France Marks down where they belong at once, every bank interested in foreign credit will be blown to pieces. I do my work right. We will make the job a new way."

The note was signed "American."

Prentice said the card apparently was in a disguised handwriting.

PLAN OF PACKERS FOR SELLING STOCK YARDS IS REJECTED

FEW YARDS HANDLE NEARLY ALL BUSINESS

WASHINGTON, Sept. 17.—Rejection by the department of justice of the plan of the "big five" packers for the disposition of their ownership in stock yards was recommended today by the federal trade commission in a special report to Attorney General Palmer.

The packers' plan, providing for the sale of the stock yards in fifteen cities to F. H. Prince & Co., of Boston, and the formation of a holding company for these yards, was attacked by the commission on the grounds that it would permit increased rather than diminished control of the yards by the packers.

Packers Draw Plans

The plan was drawn up by the packers after the filing of a consent decree in federal court here which disposed of anti-trust litigation started by the government against the packers at Chicago. "In brief," the commission's report to the attorney-general said, "the decree provides for a total divestment of stock interest by the defendants this plan leaves the way open for them and the non-defendant packer interests temporarily, and for the non-packer interests permanently to acquire absolute control of a holding company that will own fifteen of the practical stock yards of the country, whereas now they have majority control of but eleven of the fifteen."

The commission made its report on its own initiative under authority of the act creating it and providing that it may investigate the manner in which any final decree in an anti-trust case is being carried out. The object of the government litigation the commission declared would be accomplished by the packers' plan.

The fifteen stock yards included in the plan handle 73 per cent of the livestock received at all yards in the country the commission reported.

"The amalgamation of the yards thru this promotion of Mr. Prince," the commission added, "not only will be a greater monopolization of the stock yards business than now exists but it contains elements to strengthen the packing house monopoly until such time as the defendants are divested of their stock in the holding company by order of the court."

INVESTIGATION OF BOMB EXPLOSION TO BE MADE BY JURY

Jury Was Taken to Scene of Explosion Friday Afternoon

TWENTY WITNESSES TO BE SUBPOENAED

NEW YORK, Sept. 17.—The regular September grand jury which began its investigation at the order of Judge William H. Wadhams, of the court of general sessions, was instructed to divide its inquiry into two phases; first, to determine whether a crime has been committed and second, whether the disaster was due to criminal negligence.

The jury was taken to the scene of the explosion this afternoon. District Attorney Talley pointed out the spot where the automobile was found wrecked, the break in the asphalt pavement in front of the United States assay office and the spot where the demolished wagon and dead horse were found.

Mr. Talley explained however, that he had been informed that the break in the pavement, which was first reported to have been caused by the explosion, was there previously. Fifteen minutes was spent in an examination of the exterior of the buildings in the neighborhood. The guides called attention to the imprints of metal slugs in the walls of the Morgan bank and the United States assay office.

The jury was then taken into the interior of the building where the spot in which William T. Joyce, an employee of the bank who was killed was pointed out. A recess was taken until next Monday morning.

Subpoenas are issued tonight for the appearance of at least twenty witnesses. The first subpoenas were issued for Gilbert C. Smith and John Furlong, employees in the financial district and John Mielejohn, a chauffeur who is reported to have made statements that he saw a powder wagon in the vicinity of the explosion just before noon Thursday.

Two detectives also visited the offices of Prosser & Lomans in the Equitable Building to obtain a post card dated Toronto, Sept. 13, and giving warning of the disaster. This post card, like some of the other warnings made public, was signed "Ed."

Oglesby Leads Small by 1,000 With 376 Precincts to Hear From—McKinley Increases Lead Over Smith to 14,574—Only 100 Votes Separate Barr and Brundage

BULLETIN

CHICAGO, Sept. 17.—Returns from 5,396 precincts out of 5,737 in Illinois, tonight showed the following:

For Governor—Republican

2205 precincts in Cook county, Oglesby, 110,194; Small, 191,645.

3191 precincts outside Cook county, Oglesby, 241,703; Small, 157,389.

Total 5,396 precincts, Oglesby, 351,897; Small, 349,034.

For United States Senator—Republican

2,205 precincts in Cook county, McKinley, 116,667; Smith, 184,674.

3,184 precincts outside Cook county, McKinley, 230,818; Smith, 146,679.

Totals 5,389 precincts, McKinley, 347,485; Smith 331,353.

CHICAGO, Sept. 17.—Lieutenant Governor John G. Oglesby, candidate for the Republican nomination for governor on the ticket supported by Governor Frank O. Lowden today took the lead over Len Small, Mayor William Hale Thompson's candidate and tonight had an advantage of about one thousand votes with 376 precincts still to be heard from. Of the missing precincts 268 were in Chicago, where Small had averaged 40 or more to the precinct.

Congressman William B. McKinley, also supported by Governor Lowden continued to gain over Congressman Frank L. Smith of the Thompson ticket in the race for the United States senatorial nomination. McKinley had increased his lead to 14,574 tonight with 418 precincts missing.

The result of the primary must remain in doubt, however, until next week when the official count is made. This is due to the fact that ballot boxes from 253 precincts in Chicago were sealed before the count was given to the newspapers for tabulation and no returns will be available from these precincts until the ballot boxes are officially opened again.

Final results in the primary now depend on whether Oglesby and McKinley can roll up a large enough majority in the remaining downstate precincts to overcome any advantage Small and Smith may have in the returns from the missing Chicago precincts.

Small Sends Telegram.

Both sides continued confident of victory and Small tonight sent the following telegram to his campaign managers in every county:

"There is no doubt we have won. Please watch canvass of vote in your county carefully and wire official returns."

Another telegram sent all county clerks by Mr. Small placed his plurality at 8,000 and declared that "reports that I have lost are being circulated to encourage stealing of votes from me."

In the races for nomination for other state offices, Brundage, incumbent, led R. J. Barr, but only by about one hundred votes with approximately 1,000 precincts still unreported.

Miller had a seemingly safe lead of 30,000 over George Keys for nomination for state treasurer with about 1,000 precincts still unheard from while Charles W. Vall lead Edward Schneider for clerk of the supreme court by 18,000 in 4,249 out of 5,737 precincts.

L. I. Butts was hopelessly behind.

On the Democratic side there was only one really close race, Robert Emmett Burke and Peter A. Waller being about even in the contest for the senatorial nomination.

MYSTERY STILL SURROUNDS WALL STREET EXPLOSION

Federal Officers Believe Time Bomb Was Cause—Effort Being Made to Identify Wagon—Stenographer Saw a Wagon Carrying Red Flag Just Before Explosion

NEW YORK, Sept. 17.—(By The Associated Press.)—The exact cause of the explosion which in the twinkling of an eye yesterday noon transformed Wall street near Broad from a scene of bustling activity to one of dreadful carnage, remains tonight a mystery.

Official opinion as expressed by William J. Flynn, chief of the bureau of investigation of the department of justice and Fire Commissioner Thomas Drennan is that the disaster was caused by a time bomb loaded with high explosives and reinforced with metal slugs.

The early theory that the blast was caused by a collision between an explosive-laden wagon and another vehicle seems to have been dispelled by subsequent investigation, altho it has not yet been entirely discarded by official investigators.

Caused By Time Bomb
Chief Flynn, who arrived here from Washington last night to take charge of the federal investigation, declared, after leaving J. P. Morgan's office late today that "from evidence obtained within the last few hours it has been definitely established that the explosion was due to a time bomb."

"The bomb was taken to Wall street," he added, "on the wagon which was blown to pieces. The infernal machine was timed to go off at noon and apparently was placed in the wagon by a person who was within four blocks of Wall and Broad streets when the explosion occurred."

Six more deaths since midnight brought the death toll tonight to thirty-five. The number of injured, including those treated at the scene in hospitals and at their homes was approximately 300. Nearly 100 of these are still being treated in hospitals. The property damage is variously estimated from \$1,000,000 to \$2,500,000.

Eight separate investigations of the explosion were under way tonight. They were being made by the department of justice under the supervision of Attorney General Palmer and William J. Flynn, chief of the bureau of investigation, the New York police department, under the supervision of Commissioner Enright and Chief Inspector Lahay; the fire department, the building department, the September grand jury, the medical examiners office and two private inquiries by insurance companies and J. P. Morgan and Co.

Wagon is Key to Mystery
The key to the mystery apparently lies in the identification of the rickety old wagon drawn by an old horse, which was left standing at the curb in Wall street near the United States assay office and across the street from the Morgan bank a few minutes before the explosion. The horse was killed and the wagon blown to bits in the blast. The driver of the wagon is believed to have escaped.

Federal and police authorities tonight were centering their activities on this phase of the case. Every livery stable in the city is being canvassed to determine whether a horse and wagon are missing. Examination of the horse's body disclosed that it had been newly clipped and shod. There was a mark on the horse's shoes which the only clues to its identity.

Conflicting descriptions of the wagon itself have been received by the police.

Try to Reconstruct Vehicle
All available bits of the vehicle have been taken to police headquarters where efforts are being made to reconstruct the vehicle sufficiently to determine its exact type. A cursory examination indicates it was of unusual breadth which leads Detectives Chief Coughlin to believe that it was of the type used in transporting crates of eggs.

Official opinion is almost unanimous that it was not the regular type of wagon used in the transportation of powder or explosives thru city streets.

One of the best descriptions of the mysterious vehicle was furnished by Lawrence Serberne who with his partner was engaged in selling chocolates to the noon day crowd from a wagon at the corner of Nassau and Wall streets less than 300 feet from the scene of the explosion.

He declared the cart came from New street and was driven by a man who spoke with a strong Scotch accent.

"The wagon was a bum work wagon with dark, dirty red paint, something like a dirt wagon and about the size of those used by street cleaners," he said. "It was a rusty red color and was drawn by an old brown horse."

TWENTY WITNESSES TO BE SUBPOENAED

NEW YORK, Sept. 17.—The regular September grand jury which began its investigation at the order of Judge William H. Wadhams, of the court of general sessions, was instructed to divide its inquiry into two phases; first, to determine whether a crime had been committed, and second, whether the disaster was due to criminal negligence.

The jury was taken to the scene of the explosion this afternoon. District Attorney Talley pointed out the spot where the automobile was found wrecked, the break in the asphalt pavement in front of the United States assay office and the spot where the demolished wagon and dead horse were found. Mr. Talley explained however, that he had been informed that the break in the pavement, which was first reported to have been caused by the explosion, was there previously. Fifteen minutes was spent in an examination of the exterior of the buildings in the neighborhood. The guides called attention to the imprints of metal slugs in the walls of the Morgan bank and the United States assay office.

FEALTY TO THE CONSTITUTION IS PARAMOUNT ISSUE

Senator Harding So Declares In Address Delivered Friday

MAKE PUBLIC PLANS FOR TRIP

MARION, Ohio, Sept. 17.—Again assailing the Versailles league of nations, Senator Harding declared in an address today that the paramount issue of the campaign was whether the nation would choose to stand by the American constitution or abandon it for the league covenant.

The constitution and the covenant, he asserted are "irreconcilable" because the one authorizes congress to decide questions of peace or war while the other would transfer the prerogative to the league. To follow Wilson, he said, would be to desert the teachings of Washington.

Pledges Fealty to Constitution
The largest front porch audience addressed by the Republican nominee during the campaign cheered the speech and gave the speaker a prolonged demonstration when, in concluding, he repeated solemnly the presidential oath to "preserve, protect and defend the constitution."

Senator Harding also attacked the administration's policy toward the Versailles American delegates and declared the executive had overruled the constitution by taking into his own hands the power to make a war on France and San Deming in these words: "as said, a military domination had been effected over the knowledge of congress and under cover of a 'colorful' and less strict than was during the Versailles negotiations and compromises in Paris."

The nominee's stand on the league issue was further outlined in a letter to President Shuman of Cornell University made public at Harding headquarters today declaring "an association of nations" was contemplated by the Republican program.

Opposes Wilson League.
"The Democratic nominee," Senator Harding wrote, "has declared in favor of going into the covenant the president brought back from Paris. I oppose going into the league. I favor participation in a world association of nations with an international court of justice, a tribunal that shall be governed by definite principles of international law."

"I recognize that the world's peace is now to a great extent intertwined with the settlement of Versailles." From that settlement I would save all that is good and useful."

Detailed plans for the nominee's speaking trip next week into Maryland, West Virginia and Kentucky were made public here tonight. The senator and his party will travel in two special cars which during most of the three day journey will be attached to regular passenger trains. Leaving Marion on Sunday evening the candidate will speak at Baltimore, Wheeling and Ashland, Ky.

Presidential candidates this year are questioned about their views regarding the internal af-

fairs of Timbuctoo, Borriboola, Gha, the Sielly Isles and Kerguelen Land. Fortunately the time is approaching, with Harding in the White House, when the affairs of this country will be placed before the American public as more important than the doings in the distant corners of the earth.

The Jacksonville high school, according to a statement recently made, will cost the people approximately \$500,000. While this is a huge sum to pay thru taxation, the objectors are few for somehow the people feel that they are getting value received for all the money they put into their public school system.

The one hundredth anniversary of Mexican independence was ob-

served in Mexico Friday. Just what independence means in Mexico is a matter of conjecture. When one reads about the ignorance and bloodshed there, it is only a natural thought that a monarchy would be preferable. A republic should exist only where a majority of the people are capable of ruling themselves.

It seems almost too good to be true, but there is every promise of having East State street paved before the winter months. The Jacksonville authorities can count themselves fortunate in securing a bid for the construction of this pavement. There have been numerous instances in the state in the past few months where no bids were received for proposed public work.

That there is a definite dry sentiment in this state is well proven in Cook county. There eight or ten men were elected to the general assembly because of their dry support, even the opposition by the Thompson machine. In other issues in Cook county the Thompson forces swept everything before them.

The good roads boosters are now on their way to the St. Paul convention. There is an immense amount of value in these gatherings, as they lay emphasis on the "good roads now" program. Hard surface roads are well enough for future generations but it is types of road betterments that have the most interest for the people today and the highway associations give point to that fact.

The primary law may be a fine bit of legislation but not many candidates in the recent election will bear such testimony. For some of these candidates the campaign made necessary by the law's provisions has been both tiresome and expensive. One of the worst features is that while the election was held last Wed-

nesday, the result is not yet known. Where the vote is close in the state wide contest the result will not be certain until next week.

Primary law changes can be accounted among the needed pieces of legislation.

Rippling Rhymes
By Wait Mason

The Man Killer.

Along the pleasant highways, and by the rural homes, thru cool and shady byways, the snorting terror roams. The auto with a driver who threatens as he drives, who cares no copper stirrer for human limbs or lives. The auto, wisely driven, is not innately bad; it is a blessing given to man, to make him glad. When it is sanely guided along the teeming ways, it seldom is derided by bards or kindred jays. But oh, the locoed chuffer who to the highway takes, nor cures how many suffer, so he some record breaks! and oh, the heedless strappings who joy-ride in the night! 'Twould take some seven Kiplings to sew those lads up right, I hate to turn a corner when I drive out of town, for fear some speedlaw scorne will straightway run me down. The death car's always speeding to claim some helpless hick; and what this country's needing is a law that has a kick. When once the fiend, loon witted, some gent or cow has slain, he should not be permitted to drive a car again. Outlaw the reckless drivers, and let them drive no more; and we, the maimed survivors, will cry, "Hurroo! Hurroo!"

A THRILLING EXPERIENCE

Floyd Lassmet, at one time connected with the shoe firm of Mathis, Kamm & Shibe, has come to the city to end his college. He spent some time in Detroit in the police force especially devoted to bringing in feloniously given to him by the police. He had a small house he occupied on the end of a long pier extending out into the water where he looked after snappers who strove to use the waves for their purpose. One night during a severe storm of wind and rain he heard a boat approaching and listened attentively. The people on board the craft were very quiet and finally the power was shut off and was still. Thinking the craft might be in trouble Floyd jumped into his pe's boat and pulled out to the stranger when, seeing a police boat was approaching a man jumped into the water to swim ashore. Floyd boarded the boat and going below encountered a man hastening by him and seized the fleeing stranger by the coat, the only hold he could get but the fellow dextrously shied the garment and escaped.

Floyd then began to look around and found a thousand quarts of booze and in the coat the man left a good gold watch with initials on it. He took his new find to the pier and waited for day. It was a good boat, quite valuable, and the officials naturally supposed that the owners would be after it and so kept watch. One day, soon after, a man acting very suspiciously, approached and Floyd ordered him to throw up his hands which was done and then producing a pair of handcuffs snapped them on the fellow's wrists and commanded him to throw his hands over a post and stay there. Help was summoned and the man taken into custody. Floyd has his suspicions regarding some parties who may be guilty and on the whole thinks it is as healthy for him here as in Detroit.

The College of Music offers unusual opportunities in class instruction for beginners in Piano and Violin at a nominal fee. Those interested would do well to call Director Pearson at the Illinois Woman's College.

THIS IS CHILDREN'S

BURGOO DAY

As many understand the pupils of the public schools are annually treated to a small lunch at Nichols Park each year and this is the day for 1920. The management would be glad to treat all who come but while the whole town and country would be welcome to a dinner it is necessary to restrict the feed to the children and possibly a few guests invited for special reasons.

A good many persons call and sometimes are much disappointed at being unable to get any soup and it is very unpleasant to refuse but it has to be done.

If any one would like to see something over 1,200 to 1,300 happy children come out to the park between eleven and twelve which is the best time also any time from 10:30 to 5 a goodly number will be there.

Presidential candidates this year are questioned about their views regarding the internal af-

fairs of Timbuctoo, Borriboola, Gha, the Sicilly Isles and Kerguelen Land. Fortunately the time is approaching, with Harding in the White House, when the affairs of this country will be placed before the American public as more important than the doings in the distant corners of the earth.

The Jacksonville high school, according to a statement recently made, will cost the people approximately \$500,000. While this is a huge sum to pay thru taxation, the objectors are few for somehow the people feel that they are getting value received for all the money they put into their public school system.

The one hundredth anniversary of Mexican independence was ob-

served in Mexico Friday. Just what independence means in Mexico is a matter of conjecture. When one reads about the ignorance and bloodshed there, it is only a natural thought that a monarchy would be preferable. A republic should exist only where a majority of the people are capable of ruling themselves.

It seems almost too good to be true, but there is every promise of having East State street paved before the winter months. The Jacksonville authorities can count themselves fortunate in securing a bid for the construction of this pavement. There have been numerous instances in the state in the past few months where no bids were received for proposed public work.

That there is a definite dry sentiment in this state is well proven in Cook county. There eight or ten men were elected to the general assembly because of their dry support, even the opposition by the Thompson machine. In other issues in Cook county the Thompson forces swept everything before them.

The good roads boosters are now on their way to the St. Paul convention. There is an immense amount of value in these gatherings, as they lay emphasis on the "good roads now" program. Hard surface roads are well enough for future generations but it is types of road betterments that have the most interest for the people today and the highway associations give point to that fact.

The primary law may be a fine bit of legislation but not many candidates in the recent election will bear such testimony. For some of these candidates the campaign made necessary by the law's provisions has been both tiresome and expensive. One of the worst features is that while the election was held last Wed-

nesday, the result is not yet known. Where the vote is close in the state wide contest the result will not be certain until next week.

Primary law changes can be anticipated among the needed pieces of legislation.

Rippling Rhymes
By Wait Mason

The Man Killer.

Along the pleasant highways, and by the rural homes, thru cool and shady byways, the snorting terror roams. The auto with a driver who threatens as he drives, who cares no copper stiver, for human limbs or lives. The auto, wisely driven, is not innately bad; it is a blessing given to man, to make him glad. When it is safely along the teeming ways, it seldom is derided by birds or kindred jays. But oh, the loosed chuffer who to the highway takes, nor cares how many suffer, so he some record breaks! and oh, the heedless strappings who joy-ride in the night! 'Twould take some seven Kiplings to sew those lads up right, hate to turn a corner when I drive out of town, for fear some speedy scoundrel will straightway run me down. The death car's always speeding to maim some helpless hick; and what this country's needing is law that has a kick. When once the fiend, loon witted, some gent or cow has slain, he should not be permitted to drive a car again. Outlaw the reckless drivers, and let them drive no more; and we, the maimed survivors, will cry, "Hurroo! Hurroo!"

AFTER MANY YEARS.

Llewellyn L. Johnson, of St. Joseph, Mo., is in the city for a short stay. He was born in this city Jan. 1, 1844 and lived here until the breaking out of the Civil War when he enlisted in Co. I, 101st Ill. Infantry, Capt. William Lightfoot, succeeded by Capt. Frank Hilligas. On his return from the army he settled in St. Joseph, Mo., which has been his home since that time and he has not been here for 34 years. His early childhood was spent in a house which stood on the corner now occupied by the Morrison Block, corner West and West State streets. His recollections of early times is very vivid and he has met several sons of old time friends and Columbus Hairgrove, James Hamilton, James Cruse, comrades of the famous 101st with whom he had pleasant visits.

He says he was playing with Willie Yates, oldest son of Governor Yates, in and about Gass & Cassell's carpenter shop when a storm came up and Willie started home and lightning struck and killed him while on the way. Mr. Johnson's father was Green Johnson, well known at an early day but he died in 1845. Mr. Johnson has two cousins here, Mrs. William Benson, Sr., and Stephen Gorham and a number of more distant relatives. He expects to leave Sunday night for the national encampment at Indianapolis.

A THRILLING EXPERIENCE

Floyd Lassmet, at one time connected with the shoe firm of Mathis, Kamm & Shibe, has come to the city to enter college. He spent some time in Detroit in the police force especially devoted to looking after gentlemen given to bringing in feloniously the cup that cheers and inebriates. He had a small house he occupied on the end of a long pier extending out into the water where he looked after sinners who strove to use the waves for their purpose. One night during a severe storm of wind and rain he heard a boat approaching and listened attentively. The people on board the craft were very quiet and finally the power was shut off and was still. Thinking the craft might be in trouble Floyd jumped into his police boat and pulled out to the stranger when, seeing a police boat was approaching a man jumped into the water to swim ashore. Floyd boarded the boat and going below encountered a man hastening by him and seized the fleeing stranger by the coat, the only hold he could get but the fellow dextrously shed the garment and escaped. Floyd then began to look around and found a thousand quarts of booze and in the coat the man left a good gold watch with initials on it. He took his new find to the pier and waited for day. It was a good boat, quite valuable, and the officials naturally supposed that the owners would be after it and so kept watch. One day, soon after, a man acting very suspiciously, approached and Floyd ordered him to throw up his hands which was done and then producing a pair of handcuffs snapped them on the fellow's wrists and commanded him to throw his hands over a post and stay there. Help was summoned and the man taken into custody. Floyd has his suspicions regarding some parties who may be guilty and on the whole thinks it is as healthy for him here as in Detroit.

THIS IS CHILDREN'S BURGEO DAY
As many understand the pupils of the public schools are annually treated to a small lunch at Nichols Park each year and this is the day for 1920. The management would be glad to treat all who come but while the whole town and country would be welcome to a dinner it is necessary to restrict the feed to the children and possibly a few guests invited for special reasons.

A good many persons call and sometimes are much disappointed at being unable to get any soup and it is very unpleasant to refuse but it has to be done. If any one would like to see something over 1,200 to 1,300 happy children come out to the park between eleven and twelve which is the best time altho any time from 10:30 to 5 a goodly number will be there.

Conquer Your Rheumatism

The tiny pain demons that cause your Rheumatism will be back on the job with the first approach of damp, wintry weather, ready to take up their battle against your comfort with renewed fury.

And if you are going to again rely upon the liniment bottle to try to rub the disease away, you will be doomed again to nothing but disappointment. A disease that can cause so much pain and suffering as Rheumatism, is not on the surface of the skin, and cannot be rubbed away.

Many forms of Rheumatism are caused by a tiny disease germ in the blood, and in such cases the only logical treatment is to search out and remove these germs from the blood.

For this purpose there is no more satisfactory remedy than S.S.S., the fine old blood remedy that has been in use for more than fifty years, and has given such general satisfaction for Rheumatism. S.S.S. thoroughly cleanses the blood, and routes out all impurities and disease germs.

Begin taking S.S.S. today, and if you will write a complete history of your case, our medical director will give you expert advice, without charge. Address: Chief Medical Director, 823 Swift Laboratory, Atlanta, Ga.—Adv.

He was a devout member of the St. Peter's German Lutheran church of Arenzville. He was also a member of the Blue Lodge of Masonic order of Meredosia. He was a man of splendid and noble character whose life leaves an impression for good in his community. He was a very devoted husband, a kind and helpful father and always interested in the well-being of others. He was always seeking to make others happy and his home life was one of joy and contentment.

Decedent had been in failing health for a number of years. The end came peacefully after a brief illness brought on by a severe attack of pneumonia. The loving care of a devoted wife and children served to sustain him till the end.

Peace be with thee, O our brother in the spirit-land.

Vainly look we for another in thy place to stand.

Unto truth and freedom giving All thy earthly powers, Be thy virtues with the living, And thy spirit ours.

Bluffs, Sept. 16.—Mrs. Janie Woodsen, President, of the Household Science Club gave a reception at her home Tuesday afternoon for the members of the club. The greater part of the time was taken in making arrangements for the Farmers Institute to be held in Bluffs 29 and 30th. After the business session the guests were each required to find hidden away their names upon a slip of paper on the opposite side of which appeared the subject upon which were to be given.

At 6 o'clock an elegant three course dinner was served by the hostess, assisted by Misses Helen Oakes, Zoe Fitzpatrick and Dorothy Griswold. The place cards used contained the club flower, the pink carnation. Favors were pink carnations. Each of the four tables were prettily decorated and lighted by pink candles thus presenting a very handsome and pleasing appearance. Each guest responded with a toast, the best perhaps because of its appropriateness at this time was the one given by the secretary, Mrs. J. C. Lewis. Her theme was Illinois and she spoke in the highest complimentary terms.

Woodsen who had given the club such a royal reception, and of her generous hospitality.

CLEVELAND'S LEAD NOW ONE GAME

NEW YORK, Sept. 17.—Cleveland increased its lead in the American League pennant race to one full game today by defeating Washington, while Chicago was winning the second game of the series from New York.

Brooklyn maintained its six game lead in the National League race by defeating Cincinnati, the world's champions slipping to third place as a result of the New York Giants' victory over Pittsburgh.

Altho Cleveland has a lead of eleven points in the American League the first three clubs are so closely bunched as regards games won and lost that at present it is a mathematical impossibility to figure out a certain winner.

In the National League however, altho Brooklyn has not yet clinched the pennant, it will take almost a superhuman effort to nose out the Superbas. The latter have ten more games to play and if they win seven it would be impossible for New York or Cincinnati to tie them if the Giants and Reds won all their remaining games, fourteen and seventeen, respectively.

ENGAGEMENT ANNOUNCED

New York, Sept. 17.—The engagement of Baroness Speak von Sternberg, widow of the former German ambassador to the United States and before her marriage Miss Lillian May Langham of Kentucky to Adolph Payson Stedert, who was interned on Ellis Island during the war as an enemy alien, was announced here today.

Mrs. Mildred Deuring and friend Snouden Burch of Decatur visited Levi Hodge and daughter Olive over Sunday.

BROOKLYN CONTINUES TOWARD CHAMPIONSHIP

Brooklyn, Sept. 17.—Brooklyn continued to advance toward the 1920 championship of the National League today by taking the second game of the series, with Cincinnati, 3 to 2. BLUFFS HOUSEHOLD SCIENCE CLUB MET

Mrs. Janie Woodson, President, Entertains Members in Pleasant Way—Made Arrangements for Farmers Institute Oct. 29-30.

Bluffs, Sept. 16.—Mrs. Janie Woodson president of the Household Science club gave a reception at her home Tuesday afternoon for the members of the club. The greater part of the time was taken in making arrangements for the Farmers' Institute to be held in Bluffs 29 and 30th. The program, press and floral committees were also appointed by the president.

After the business session the guests were each required to find hidden away their names upon a slip of paper on the opposite side of which appeared the subject upon which were to be given.

At 6 o'clock an elegant three course dinner was served by the hostess, assisted by Misses Helen Oakes, Zoe Fitzpatrick and Dorothy Griswold. The place cards used contained the club flower, the pink carnation. Favors were pink carnations. Each of the four tables were prettily decorated and lighted by pink candles thus presenting a very handsome and pleasing appearance. Each guest responded with a toast, the best perhaps because of its appropriateness at this time was the one given by the secretary, Mrs. J. C. Lewis. Her theme was Illinois and she spoke in the highest complimentary terms of Mrs. Woodson who had given the club such a royal reception, and of her generous hospitality.

The club also extended her vote of thanks for the pleasant and hospitable manner in which they were received. A beautiful bouquet of pink carnations was collected and sent to one of our absent members, Mrs. William Hildebrand, who with her little son, William, Jr., is at our Savior's hospital in Jacksonville. At 7 o'clock the guests departed for their homes after voting Mrs. Woodson a royal hostess.

CLEVELAND WINS 9-5

Cleveland, O., Sept. 17.—What started out like a pitchers' battle between Coveleskie and Courtney today ended in a rout for Washington, Cleveland winning 9 to 3.

Long hits by Smith, Wambagans, Evans and Speaker gave the Indians a lead and with Acosta pitching the eighth inning Cleveland scored four more on two bases and three hits, two of which were for extra bases. The score: Cleveland AB R H O A E Courtney, Acosta and Garrity; Coveleskie and O'Neill.

Browns 17; Philadelphia 8

DETROIT DEFEATS BOSTON

Detroit, Sept. 17.—Boston and Detroit played a slow, listless game today, the locals winning out in the twelfth inning 14 to 13. The Tigers used five recruit pitchers in the contest but they held Boston to nine hits.

CLEVELAND'S LEAD NOW ONE GAME

NEW YORK, Sept. 17.—Cleveland increased its lead in the American League pennant race to one full game today by defeating Washington, while Chicago was winning the second game of the series from New York.

Brooklyn maintained its six game lead in the National League race by defeating Cincinnati, the world's champions slipping to third place as a result of the New York Giants' victory over Pittsburgh.

Altho Cleveland has a lead of eleven points in the American League the first three clubs are so closely bunched as regards games won and lost that at present it is a mathematical impossibility to figure out a certain winner.

In the National League however, altho Brooklyn has not yet clinched the pennant, it will take almost a superhuman effort to nose out the Superbas. The latter have ten more games to play and if they win seven it would be impossible for New York or Cincinnati to tie them if the Giants and Reds won all their remaining games, fourteen and seventeen, respectively.

ENGAGEMENT ANNOUNCED

New York, Sept. 17.—The engagement of Baroness Speak von Sternberg, widow of the former German ambassador to the United States and before her marriage Miss Lillian May Langham of Kentucky to Adolph Paventstet, who was interned on Ellis Island during the war as an enemy alien, was announced here today.

Cincinnati took the lead in the fifth scoring two runs. Olson led off for Brooklyn in the seventh with a double, took third on Johnston's sacrifice and scored on Griffith's hit to left. ROTARIANS HAD RECORD ATTENDANCE

Squad System Brings Good Results—H. A. Perrin Told Something About New Line in Educational Effort.

The attendance at the Rotary club luncheon yesterday was just about the largest on record, the new squad plan bringing the total up to something more than 90 per cent. President Pontius introduced the guests of the day, H. A. Babcock, a Rotarian of Chicago; A. C. Simmons also of Chicago, a landscape gardener, and Alex Levy of Kansas City. Mr. Levy was a messmate of W. A. Fay at a southern officers' training camp during the war period.

After the visitors had spoken briefly, Supt. H. A. Perrin of the public schools was asked to tell something about his summer's work. In introducing his President Pontius said that a man who has spent all of his vacation period in study so that he might give more effective service, had the true Rotarian spirit.

Mr. Perrin spoke particularly of one special line of investigation that he had followed this summer while at Chicago university—industrial personnel. He said that in a brief period before the war and during the war there was special development along this line of endeavoring to place people where they can do their best. Every one can do something worth while and the task is to find out just what that work is. There have been in the past too many floaters and flounders without their energies being directed along certain lines to which they are adapted. In educational work it often happens that efforts are being made to develop boys and girls along lines for which they have no special adaptability or fitness. As a general thing the work has been the result of accident or because a young person has observed some person in a particular line of work.

Following the study of industrial personnel Mr. Perrin had occasion to visit many training schools associated with industrial plants. In some industries there is a complete turn over of employees in a three year period. The records of juvenile workers show that many of these workers have been known to hold from 15 to 20 jobs in one year's time.

Education and Life Work These facts and others give proof of the haphazard way in which lines of work are chosen. A worthy while effort for educators is to connect up the school life and work with the life and work of the community. By certain lines of study and by certain tests it has been shown that the educational work of young people can be shaped in a way to make for their greater efficiency in after years.

Mr. Simmons, who as mentioned above, is a landscape gardener, came to Jacksonville to inspect the Lake Mauvaster property and make suggestions. Mr. Simmons has been engaged in this work for a great many years and is accounted an expert in his line. It was he who visited Jacksonville some years ago and did the landscape work on Illinois college campus.

After Secretary Spink called the roll he read a letter from girls of the parochial school expressing their appreciation for the use of the Meredosa club house. A similar letter was received from the Boy Scout organization.

MENTAL CLINIC WORK EXPLAINED

Dr. T. G. McLin Made Address Before Macon County Medical Society.

At the fall luncheon of the Macon County Medical Society held in Decatur recently, the address was given by Dr. Thomas G. McLin of the staff of Jacksonville State Hospital, and now the president of the Jacksonville Medical Club. The Decatur Review in making reference to the address had the following paragraphs:

Dr. McLin was really speaking for the co-operation of the physicians and welfare officials in the development of the mental clinic which has been established at Decatur by the state. A similar clinic has also been established in just three other Illinois cities, Jacksonville, Quincy and Springfield, and the results which have followed the few months trial in these cities justifies the belief of the state authorities that it is very much worth while.

Every three weeks a mental expert comes to Decatur accompanied by the social service worker of the state and cases brought to the clinic are studied and the best methods of treatment prescribed.

Form Bad Habits

During his talk Dr. McLin said: "The defectives who respond well to training usually will be a detriment to the public if not properly trained and supervised. They readily form bad habits, especially idleness and carelessness in doing tasks assigned to them. Mental reactions of defectives are quite different but as a rule they are very easily influenced by environments."

"The physician owes it to the child, the parents and the community to advise parents when he finds that a child is mentally below normal so that proper training can be provided for such a child either thru special instructors or in the institutions of the state. No physician should be satisfied merely to prescribe for the physical ills only of such a person."

The speaker urged the close co-operation of all the welfare organizations in this city with the physicians and state authorities to correct as much as possible this evil, which is becoming an increasing burden on the community, by making intelligent efforts to train these defectives to become, in a measure at least, self supporting.

"CARMEN" COMING TO THE GRAND

Jacksonville is to have a rare musical treat in the magnificent revival of the Bizet opera "Carmen" which Ralph Dunbar will bring to the Grand Theatre, Friday, Sept. 24. Lorna Doone Jackson, who made such a decided hit last season as "Alana-Dale" in "Robin Hood" will sing the role of "Carmen." Mr. Dunbar has surrounded his pretty and talented star with a company of principals and chorus numbering sixty. The production is so large that only cities with ample theater stages are being visited.

"Carmen" is an opera in four acts. Halevy and Meilhac are responsible for the libretto which they adapted from Prosper Merimee's romance. Bizet's score is famous. The opera was first produced at the Opera Comique, Paris, March 3, 1875, with Mme. Galli-Marie in the title role and Mile Chapuy as "Michala."

BROOKLYN CHURCH WILL GIVE BURGOO

Ladies Will be in Charge of Affair—Date Has Been Set for September 22.

September 22 has been fixed as the date for the Brooklyn church burgoo. The burgoo will be given under the auspices of the Ladies Aid of the church.

Mrs. Emma Taylor of Woodson has been engaged to make the soup. Her reputation in this line is well known and patrons are assured of the best soup it is possible to make. There will also be plenty, so there will be no shortage as there was at the August burgoo.

The receipts from the burgoo will be used for church expenses. While no church in the city has a more loyal membership than Brooklyn it is small and the members give liberally there is considerable deficit in the funds.

Recently a new roof has been placed on the edifice and it is the desire to raise money to pay for this improvement. The church has a large Sunday school but most of the children are too small to contribute for the upkeep of the church.

Brooklyn church has been, and is, a great force for good in the community and its membership has maintained the church in the face of great difficulties. It is hoped there will be a large patronage of the burgoo as the money thus secured will be a great help to promoting the activities of the church.

ROTARIANS HAD RECORD ATTENDANCE

Squad System Brings Good Results—H. A. Perrin Told Something About New Line in Educational Effort.

The attendance at the Rotary club luncheon yesterday was just about the largest on record, the new squad plan bringing the total up to something more than 90 per cent. President Pontius introduced the guests of the day, H. A. Babcock, a Rotarian of Chicago; A. C. Simons also of Chicago, a landscape gardener, and Alex Levy of Kansas City. Mr. Levy was a spokesman of W. A. Pay at a southern officers' training camp during the war period.

After the visitors had spoken briefly, Supt. H. A. Perrin of the public schools was asked to tell something about his summer's work. In introducing him President Pontius said that a man who has spent all of his vacation period in study so that he might give more effective service, had the true Rotarian spirit.

Mr. Perrin spoke particularly of one special line of investigation that he had followed this summer while at Chicago university—industrial personnel. He said that in a brief period before the war and during the war there was special development along this line of endeavoring to place people where they can do their best. Every one can do something worth while and the task is to find out just what that work is.

There have been in the past too many floaters and flounders without their energies being directed along certain lines to which they are adapted. In educational work it often happens that efforts are being made to develop boys and girls along lines for which they have no special adaptability or fitness. As a general thing, life work has been the result of accident or because a young person has observed some person in a particular line of work.

Following the study of industrial personnel Mr. Perrin had occasion to visit many training schools associated with industrial plants. In some industries there is a complete turn over of employees in a three year period. The records of juvenile workers show that many of these workers have been known to hold from 15 to 20 jobs in one year's time.

Education and Life Work
These facts and others give proof of the haphazard way in which lines of work are chosen. A worth while effort for educators is to connect up the school life and work with the life and work of the community.

Mr. Simons, who as mentioned above, is a landscape gardener, came to Jacksonville to inspect the Lake Manatee property and make suggestions. Mr. Simons has been engaged in this work for a great many years and is accounted an expert in his line. It was he who visited Jacksonville some years ago and did the landscape work on Illinois college campus.

After Secretary Spink called the roll he read a letter from girls of the parochial school expressing their appreciation for the use of the McQuinn club house. A similar letter was received from the Boy Scout organization.

MENTAL CLINIC WORK EXPLAINED

Dr. T. G. McLin Made Address Before Macon County Medical Society.

At the fall luncheon of the Macon County Medical Society held in Decatur recently, the address was given by Dr. Thomas G. McLin of the staff of Jacksonville State Hospital, and now the president of the Jacksonville Medical Club. The Decatur Review in making reference to the address had the following paragraphs:

Dr. McLin was really speaking for the co-operation of the physicians and welfare officials in the development of the mental clinic which has been established at Decatur by the state. A similar clinic has also been established in just three other Illinois cities, Jacksonville, Quincy and Springfield, and the results which have followed the few months trial in these cities justifies the belief of the state authorities that it is very much worth while.

Every three weeks a mental expert comes to Decatur accompanied by the social service workers of the state and cases brought to the clinic are studied and the best methods of treatment prescribed.

Form Bad Habits

During his talk Dr. McLin said: "The defectives who respond well to training usually will be a detriment to the public if not properly trained and supervised. They readily form bad habits, especially idleness and carelessness in doing tasks assigned to them. Mental reactions of defectives are quite different but as a rule they are very easily influenced by environments."

"The physician owes it to the child, the parents and the community to advise parents when he finds that a child is mentally below normal so that proper training can be provided for such a child either thru special instructors or in the institutions of the state. No physician should be satisfied merely to prescribe for the physical ills only of such a person."

The speaker urged the close co-operation of all the welfare organizations in this city with the physicians and state authorities to correct as much as possible this evil, which is becoming an increasing burden on the community, by making intelligent efforts to train these defectives to become, in a measure at least, self supporting.

"CARMEN" COMING TO THE GRAND

Jacksonville is to have a rare musical treat in the magnificent revival of the Bizet opera "Carmen" which Ralph Dunbar will bring to the Grand Theatre, Friday, Sept. 24. Lorna Doone Jackson, who made such a decided hit last season as "Alan-a-Dale" in "Robin Hood" will sing the role of "Carmen." Mr. Dunbar has surrounded his pretty and talented star with a company of principals and chorus numbering sixty. The production is so large that only cities with ample theaters stages are being visited.

"Carmen" is an opera in four acts. Halevy and Meilhac are responsible for the libretto which they adapted from Prosper Merimee's romance. Bizet's score is famous. The opera was first produced at the Opera Comique, Paris, March 3, 1875, with Mme. Galli-Marié in the title role and Mlle Chapuy as "Michala."

BROOKLYN CHURCH WILL GIVE BURGOO

Ladies Will be in Charge of Affair—Date Has Been Set for September 22.

September 22 has been fixed as the date for the Brooklyn church burgoo. The burgoo will be given under the auspices of the Ladies Aid of the church.

Mrs. Emma Taylor of Woodson has been engaged to make the soup. Her reputation in this line is well known and patrons are assured of the best soup it is possible to make. There will also be plenty, so there will be no shortage as there was at the August burgoo.

The receipts from the burgoo will be used for church expenses. While no church in the city has a more loyal membership than Brooklyn it is small and the members give liberally there is considerable deficit in the funds.

Recently a new roof has been placed on the edifice and it is the desire to raise money to pay for this improvement. The church has a large Sunday school but most of the children are too small to contribute for the upkeep of the church.

Brooklyn church has been, and is, a great force for good in the community and its membership has maintained the church in the face of great difficulties. It is hoped there will be a large patronage of the burgoo as the money thus secured will be a great help to promoting the activities of the church.

TO THE VOTERS OF MORGAN COUNTY

I desire through the columns of the Journal to express my appreciation and thanks to the many Christian men and women, and other friends who have known me longest and best, for the loyal support given me on last Wednesday. And to the parties who accomplished my defeat by maliciously circulating gross falsehoods, I desire to express a hope that they may live to repent not only for the wrong they did me, but the grosser wrong they did to many innocent and well disposed men and women, by wilfully deceiving them.
